

Elinor Wonders Why

Season Two Assumptions

Summit November 9, 2022

- 8 Principal Actors per A+B Pairing – remember if they are in the A script, they are not counted in the B script.
- Ditty's will only be on one episode; this will be further evaluated as to how it will be handled.
 - x26 ditties in total and this accounts for the two x22 A+B combined episodes.

Character and Location Assumptions per 11-minute episode:

40% of reuse for characters, props, and locations for Season Two – we want to revisit location and characters that we only touched on in season one.

- New main characters x1
- New secondary characters x1
- New incidental characters x2 (nonspeaking roles), 3/4 front – no lip sync or rigging
- New BG/Layouts x2 locations, 20 layouts
- New props 10 to 15
- Animated FX or Special Comp shots 8 to 10
